

IMMUNOCHEMISTRY TECHNICIAN

RESEARCH GROUP:

Nanobiotechnology for Diagnostics (Nb4D) group

<http://www.iqac.csic.es/nb4d/>

IQAC-CSIC/CIBER-BBN

Jordi Girona, 18-26

08034-Barcelona

PROJECT: *Pseudomonas aeruginosa* diagnosis

OFFER:

- One year contract
- We offer the possibility to integrate oneself in a dynamic research group and to obtain a multidisciplinary formation in the chemistry and biomedicine fields.

CANDIDATE PROFILE:

We look for a Chemistry / Biology / Biotechnology graduate or an undergraduate specialized on:

- Immunochemistry assay
- Handling and processing microbiological samples
- Writing reports
- Good knowledge of English language
- Communication skills will be highly valued

MAIN TASKS

- Handling and preparing biological samples
- Performing and optimizing ELISA assays for detecting bacterial virulence factors

Applicants should send motivation letter and curriculum vitae to:

Dr. Miriam Corredor
